

LUMISTRIP

EXELITE

A breakthrough in high visibility personal safety the Exelite™ LUMISTRIP™ and LUMISTRIP ACTiV™

Lightweight and durable, the Exelite Lumi Strip/Activ Strip can be worn anywhere you need to be seen.

Using cutting edge technology, the Exelite Lumi Strip/Activ Strip applies the properties of electro-luminescence to produce a self-lit, high visibility device for personal safety. Unlike retro-reflective wear, there is no need to rely on an external light source in order to be seen.

The Exelite Lumi Strip/Activ Strip is clearly visible through rain, fog and even smoke, as its undistorted light beams are generated by radio frequency rather than by conventional lighting methods.

The Exelite Lumi Strip/Activ Strip is powered by rechargeable Li-ion batteries. Recharging the Lumi Strip/Activ Strip is as simple as recharging your mobile phone.

HIGHLY VISIBLE UP TO 800M

LIGHTWEIGHT AND DURABLE

VISIBLE FROM ALL ANGLES
Even in extreme weather conditions

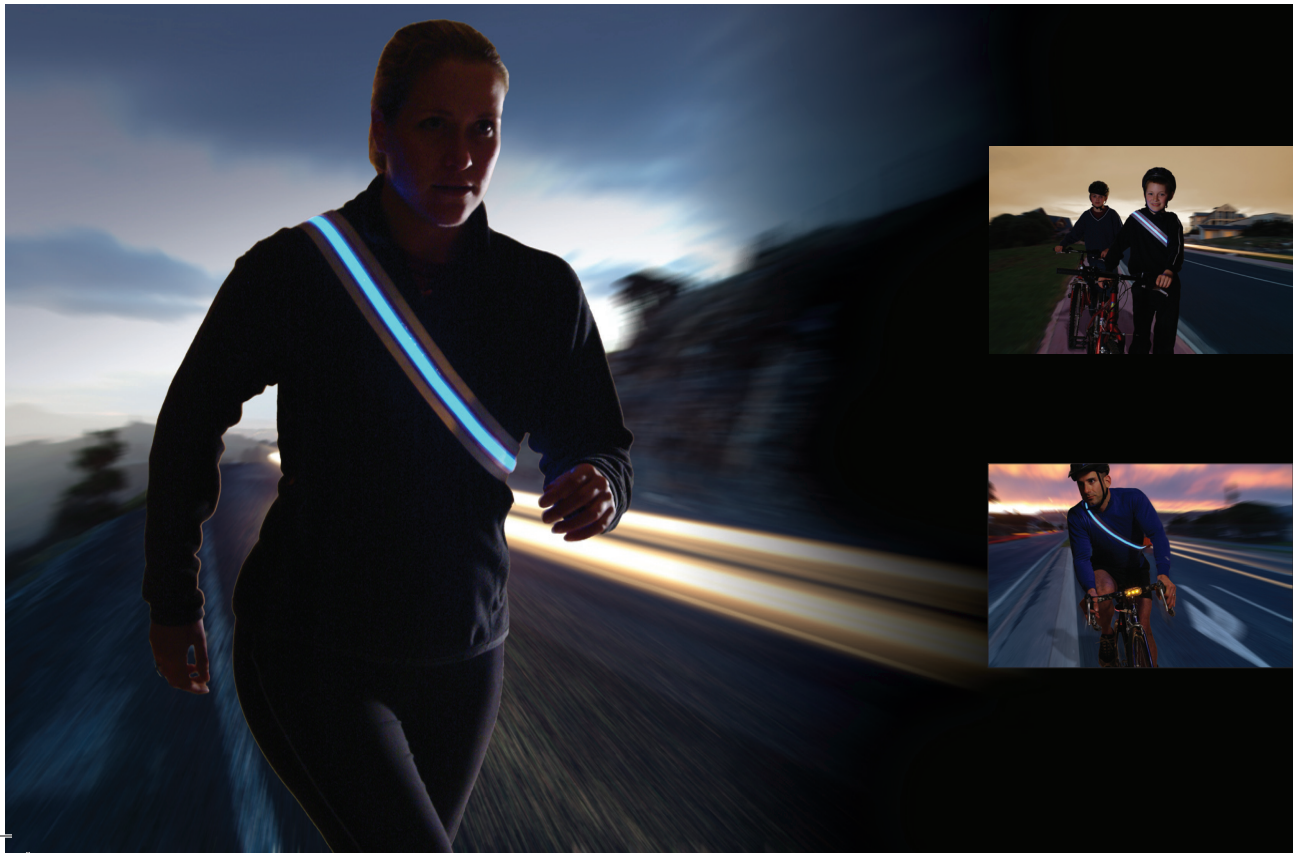

ADJUSTABLE FOR THE PERFECT FIT

WEATHER RESISTANT
